

Juanita Verbree

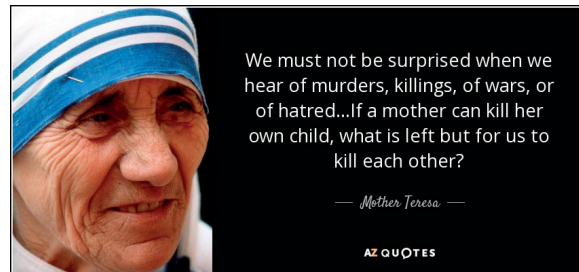

What is going on in 2016? This new year will be FILLED with change.....! In 2016 we will be saturated with all kinds of political ideologies. Congress, and its ongoing struggles for control and party leadership, the election of a new president, the ongoing horrors of terrorists, both HOME and abroad. The lack of respect for law enforcement, The fight to bring out the truth regarding the evil business of PLANNED PARENTHOOD, and let's not forget gun control.! Yikes, are we a country that has totally lost its way? It sure looks that way.....

As a long time pro-life person, and spokeswoman, I remember attending my very first pro-life event in Olympia, while expecting my first daughter, Rachel. It was January of 1981. The weather was icy cold and there were literally thousands at the capital that day. It was exactly 8 years since that fateful day our nation, (under God) decided by an act of the Supreme Court, to become a culture of DEATH! (January 22, 1973) Wow, how can it be that a group of 9 persons could change the culture of this land? (no votes from the people)

Now, almost 34 years have gone by, and our country is still arguing about rights of women to kill their own children. The pro-life community knew THEN, and knows NOW, that this atrocity against God's perfectly created child, unto His own likeness, was the first step within a nation to cheapen and devalue all human life! Could it be more clear after 43 years of legalized killing of the unborn that now we feel free to kill at school, at a traffic stop, at a church, a college, a public event, or just anywhere a person feels like killing today?

What can we do? It is still very basic.....Our nation needs Godly leaders,
below are 6 ways you can work towards a culture that supports life.

1. Vote for men & women who are godly by Biblical standards.
2. Pray for our leaders, and pray for those working for life on the front lines
3. Support pro-life agencies, they are not funded by the government
4. Get involved locally, attend meetings and serve your community
5. Use social media to promote LIFE...share, share, share.

Whatcom County Pro-life Agencies
