Fundraiser a Bust *****

\$122,000.00 Raised. What a blessing....Thank-you to all November the 8th was a wonderful evening for the 400 banquet guests. The evening couldn't have gone any better: Our gratitude lies with Management Services Northwest who hosted the ENTIRE event. Thank-you to Terell Weg for all her efforts. \$122,000.00 was raised. Our dinner included chicken Cordon Blue along with a decadent desert dash. Sooooo good. And we can't forget to mention the fun auction, hosted by Duane VanWeerdhuizen, and ring man Mike Roorda. Lynden Human Life is grateful to the Christian Hope Association for the wonderful parents they have proven to be of "Great Expectations". Martin & Juanita Verbree along with Marlae Nieuwsma are serving on the New Way board to help facilitate a smooth transition. Lynden Human life continues to ask for your financial support towards Great Expectations. They have a full house of mom's and babies.

Unilever's Blockbuster Pro-Life Ad: Why Bring A Child Into This World?

Every so often a big company makes an ad that drives home the pro-life message or, at minimum, fosters a respect for life. That's the case with industrial giant Unilever, which made a new film encouraging expectant parents to bring their children into the world.

Calling the film the "most hopeful secular production I've seen in decades," pro-life blogger and scientist Gerard Nadal has this to say. http://www.lifenews.com/2013/11/27/unilevers-blockbuster-pro-life-ad-why-bring-a-child-into-this-world/

Supreme Court Won't Stop Texas Law Closing Abortion Clinics

Tuesday, Nov. 19, 2013

Supreme Court Justice Antonin Scalia issued an opinion today indicating the Supreme Court will not get involved in a case out of Texas that has abortion facilities there appealing a law that has closed numerous abortion clinics that can't protect women's health.

In a big victory for pro-life advocates in Texas earlier this month, the Fifth Circuit Court of Appeals overturned Judge Lee Yeakel of the Western District Court in

Austin and restored key portions of a pro-life law in Texas that will ultimately stop abortions and could close abortion clinics. Abortion clinics appealed that decision to the Supreme Court and Justice Scalia issued a ruling today saying the high court will not get involved. http://
