

Pro-lifers have never been more encouraged than with President Trump. Yes he does say crazy things at times and his hair is a little odd, but he has appointed conservative Neil Gorsuch to the Supreme Court and with the possibility of Justice Anthony (81 years old) retiring, we could have another conservative appointed! Kennedy is one of those votes in favor of keeping Roe versus Wade in place and it's allowance for virtually unlimited abortions nation wide. Since Kennedy was appointed by Republican President Ronald Reagan it is possible that his replacement would be made by President Trump, who so far has kept his word on appointing a conservative justice. This could mean a swing vote towards life affirming decisions! Go Donald.

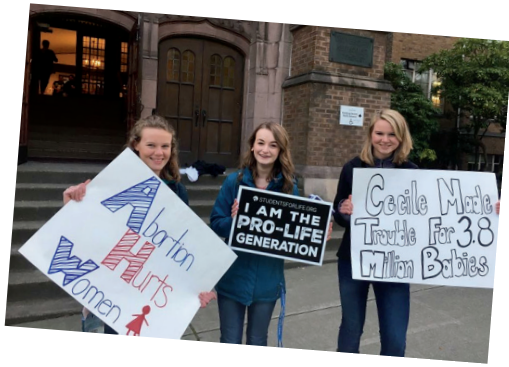

On the United Nations front, President Trump has re-instituted and expanded the Mexico City policy which is non-governmental organization's will not perform or actively promote abortion as a method of family planning using funds from any source. He has defunded the United Nations population's fund. He has approached the United Nations treaty body for seeking to manufacture an international right to abortion. He has insisted on important caveat is an international agreements that include "sexual and reproductive health" to rule out international abortion rights.

He was the first president to do a live feed to the Right to Life march in January in Washington DC. The largest march in DC that receives little coverage by the media. Thank you President Trump! We still need to defund Planned Parenthood and use those tax dollars for clinics that treat everyone, pregnant women, babies children and men. We need to keep fighting and tell the truth about abortion.

17,552 abortions were performed in 2015 in Washington State. 7,649. (44%) were repeat abortions. 10,335 (59%) of all abortions were paid for with our tax dollars. Source: Center for health statistics Washington state department of health (7/2015) state of Washington pregnancy and abortion related expenditure (12/282015).

Our state is still the most liberal state in regards to abortions, allowing an abortion until the first contraction of labor. This is despicable! And I am sick of paying for the killing of innocent babies. Please vote pro-life in November the unborn need you.

Proudly pro-life  
Marlae Nieuwsma  
President  
Lynden human life

Hello,

I'm Karlie Lodjic and I'm the president of the WWU Students for Life club. This year we have worked to take pro-life action in five areas: public policy, industry, supportive services for young mothers, education, and responding to pro-abortion activity. Spring quarter, we did a lot of work on campus with the last three of these areas. We set up a table at WWU to have students write encouraging notes to their pregnant and parenting peers for Mother's Day, and had pregnancy resources and baby clothes to distribute if needed. We also had two informational tables, one about the effects of Roe vs Wade and one about the dangerous side effects of abortion. Our club began leaving roses by and on the Planned Parenthood club table they host almost every Friday with information about quitting the abortion industry and a note that stated the rose represents 6,180 babies aborted by Planned Parenthood (PP) weekly in the United States. We wrote pro-life chalk messages in Red Square that included info on post-abortive recovery programs and pregnancy resources. This was mostly washed away by two students who refused to listen to what we had to say and insisted all anti-abortion resources are bad. We also stood outside Planned Parenthood on several abortion days with pro-life signs including pregnancy resources, and a woman insisted that Planned Parenthood should be our friend. We have some strong opposition in Bellingham, but remain determined to educate our peers and support pregnant and parenting students. Your support means so much to us!

## BREAKING NEWS..... *(at time of printing)*

Jun 27, 2018 | 2:17PM Washington, DC

### Pro-Abortion Supreme Court Justice Anthony Kennedy Announces His Retirement

Leading pro-abortion Justice Anthony Kennedy announced today that he is retiring from the nation's highest court after spending over 30 years on it. Kennedy sometimes sided with pro-life advocates on upholding key pro-life limits on abortion but he continually upheld Roe v. Wade and its allowance for virtually unlimited abortions throughout pregnancy.

His retirement will set into motion a massive battle to replace him with a justice who would uphold the rule of law and potentially pave the way for reversing the most horrific Supreme Court decision in history.

The retirement will be effective July 31, That will set the wheels in motion for ***President Donald Trump to name his replacement. (this is the best opportunity for the unborn)***

Since 1973, pro-life people have been yearning for the day that a majority pro-life Supreme Court would overturn Roe v Wade. Although the high court has been closely divided over the years it has always stayed at least one vote on the pro-abortion side.
