BELLINGHAM DOESN'T SPEAK FOR OUR COUNTY

Recently the City of Bellingham proclaimed its official, perverse enthusiasm for unrestrained abortion. It stirred up a flashback of another degraded moment long ago when a ranting Governor George Wallace proudly assured Alabama it would enjoy "Segregation Now, Segregation Tomorrow, Segregation Forever!"

Alabama has since repented of that stance and joined the human race. Moreover, it has joined eight other states this year in passing restrictions on the destruction of pre-born children. They include Louisiana, Mississippi, Georgia, Utah, Arkansas, Kentucky and Ohio.

In May I happened to be in my home state of Missouri when its legislature stood strong for life. I've never been prouder of my stouthearted Ozark neighbors who came through in the clutch. If implemented, Missouri will no longer have any abortion centers within its boundaries!

Bellingham doesn't speak for Lynden or our county. Lynden Human Life and its many, many supporters suggest that our city council declare Lynden a "Sanctuary City," that "values and protects all human life: born and pre-born, young and elderly, healthy or ill, a city where each person is wanted, needed, welcomed, celebrated, treasured and loved."

We believe Jesse Jackson had it exactly right – in an 1977 National Right to Life News article:

"What happens to . . . a person, and the moral fabric of a nation, that accepts the aborting . . . of a baby without a pang of conscience? What kind of a person and what kind of a society will we have 20 years hence?"

Tragically, we now know.

LIFE-CHAIN SUNDAY
OCTOBER 6TH • 2:00 - 3:00PM

LIFE-CHAIN is a peaceful and prayerful public witness to pro-life Americans standing for one hour, praying for our nation and for an end to abortion. It is a visual statement of solidarity by the Christian community that abortion kills children and that the church supports the "Sanctity of Human Life" from the moment of conception to natural death.

- Stand with thousands of pro-lifers throughout the USA and Canada! You'll be a light in a darkened world as you help put an end to abortion through prayer!
- Bring your whole family!
- Water, lawn chairs, umbrellas and strollers are welcome and encouraged!
- Rain or shine!

EVERY 2020 DEMOCRATIC PRESIDENTIAL CANDIDATE SUPPORTS ABORTION ON DEMAND

At the #DemDebate in June, one thing was made abundantly clear (that we already knew): Every single person on this stage supports a policy of abortion on demand. And they want taxpayers to pay for it.

Make sure to support the Re-election of Donald J. Trump, or our entire country will be pro-death. Many, many, lives will be lost due to the removal of the basic human right, "the right to life."

PRESIDENT OF PLANNED PARENTHOOD FIRED AFTER ONLY EIGHT MONTHS

WASHINGTON (CNS) — Following the news Dr. Leana Wen was fired by Planned Parenthood as its president, several pro-life leaders remarked that the organization was upset the physician had emphasized the need to expand Planned Parenthood services beyond abortion.

"Leana Wen entered Planned Parenthood to great fanfare. As a physician, it was anticipated that she would evolve the organization, long seen as a partisan platform, into a health care institution," said Catherine Glenn Foster, president and CEO of Americans United for Life.

"And when Dr. Wen tried to do precisely that, she was fired. She refused to allow abortion to dominate Planned Parenthood's agenda, all the way from the very top down to every talking point," she added in a July 18 statement. "Dr. Wen's termination is emphatic proof that Planned Parenthood has been, is and will be nothing more than a political machine."

Various news reports said Wen wanted to provide additional services such as mental health and substance abuse resources, but, according to Americans United for Life, "anonymous

Planned Parenthood employees referred to these treatments as 'mission creep.'"

In a July 19 op-ed in The New York Times, Wen wrote: "In my farewell message to colleagues, I cited philosophical differences over the best way to protect reproductive health. While the traditional approach has been through prioritizing advocating for abortion rights, I have long believed that the most effective way to advance reproductive health is to be clear that it is not a political issue but a health care one."

She added, "I believed we could expand support for Planned Parenthood — and ultimately for abortion access — by finding common ground with the large majority of Americans who can unite behind the goal of improving the health and well-being of women and children."

Planned Parenthood announced Alexis McGill Johnson, co-founder of the anti-bias research group Perception Institute and Planned Parenthood board member, will temporarily replace Wen until a new president is hired.

American Life League's president, Judie Brown, said Wen "was trumpeted as the first doctor to lead Planned Parenthood since Dr. Alan Guttmacher in the 1970s."

"Wen came into Planned Parenthood looking to move Planned Parenthood out of the political arena and into actual health care. She lasted only eight months," Brown said.

Wen "discovered" that Planned Parenthood, she said, "is not now, nor has it ever been, a health care organization. (It) is an organization established to promote the humanist religion, to lead our young people to hell, and to make a lot of money along the way so it can buy influence with politicians and media."
